

Kathleen L. Pittman
Multimedia Artist

Professional Profile

Ms. Pittman is responsible for the design and creation of animation, graphics, multimedia, and interactive presentations. She works closely with engineers, scientists, and attorneys to present complex technical information in a clear and compelling manner.

Ms. Pittman is experienced in a wide variety of 3D-related technologies from laser scanning to 3D printing. She relies upon data from survey equipment, photogrammetric analysis, laser scanning point cloud data, HVE simulations, and many other sources of measurement, lighting data, and motion simulation to create accurate and admissible animations and graphics. Additionally, she assists the scientific and engineering staff with the creation of 3D assets used in analysis and accident reconstruction.

Ms. Pittman is a specialist in 3D Studio Max and Adobe Illustrator. She is also proficient in AutoCAD, Leica CloudWorx, AliceLabs Studio Clouds, Photoshop, Flash, After Effects, Premiere, PhotoModeler, and ZBrush. Her experience prior to Exponent includes the design and creation of educational materials for colleges and universities and promotional materials for city planning firms.

Ms. Pittman has deposition and testifying experience in the state of Arizona.
