

Casper De La Cruz
Senior Multimedia Artist

Professional Profile

Mr. Casper De La Cruz specializes in visual communication techniques including graphics, technical illustration, 3D modeling, texturing, lighting, computer animation, digital imaging, and video post-production. He produces visuals and 3D animations for demonstrative evidence and for marketing, engineering, scientific, and technical presentations. Mr. De La Cruz is adept at visual presentation of scientific concepts and the applications of computer animation and digital video.

Prior to joining Exponent, Mr. De La Cruz was a Modeler for Blue Palm, where he specialized in environmental modeling and texturing.
