Engineering & Scientific Consulting

Anna Clark

Senior Scientist | Chemical Regulation and Food Safety
Harrogate
+44 1423 878971 | clarka@exponent.com

Professional Profile

Anna Williams has over 7 years of expertise in technical and regulatory compliance, specialising in the launch and management of formulated products, including biocides, detergents and cosmetics. Her core focus is disinfectants, with experience in national registrations under transitional measures, efficacy testing, and product labelling. Her skillset encompasses Classification, Labelling and Packaging (CLP/GHS), Safety Data Sheet (SDS) management, Poison Centre Notifications (PCN), DEFRA disinfectant approvals, Extended Producer Responsibility (EPR) submissions, and the regulatory oversight for detergent and cosmetic products. Additionally, Anna has a background in project management, overseeing the end-to-end process of new product launches in compliance with regulatory frameworks.

Prior to joining Exponent, Anna held the position of Senior Regulatory Manager in Byotrol. In this role, she led the company's Biocidal Products Regulation (BPR) strategy, overseeing the transitional registration of new products across the UK and EU. She managed all aspects of regulatory compliance for new and existing products, ensuring compliance with evolving regulations.

Previously Anna has also worked closely with major retailers across the UK, EU and South Africa to develop and manage a diverse range of disinfectant, detergent and cosmetic products. She provided technical and regulatory expertise to ensure products met both retailer-specific requirements and all relevant regulations.
