

Exponent[®]
Engineering & Scientific Consulting

Darcy Cavanagh

Senior Associate | Construction Consulting
Farmington Hills
+1-510-268-5014 | dcavanagh@exponent.com

Professional Profile

Mr. Cavanagh's experience in the construction industry encompasses project control oversight, change order management, design and constructability reviews, and trade supervision. His previous projects span commercial core and shell construction, tenant improvements, and heavy civil infrastructure.

Mr. Cavanagh received his master's degree in Civil and Environmental Engineering from the University of California, Berkeley. His academic focuses included lean construction and its impact on modular project delivery, environmental assessments of civil systems, project controls and management, and construction contract law. Mr. Cavanagh's bachelor's degree, also in Civil and Environmental Engineering, is from the Ohio State University. There, he was involved in international humanitarian engineering.
