

Exponent®
Engineering & Scientific Consulting

David Wills, P.E., CFEI, CVFI

Senior Managing Engineer | Metallurgical and Corrosion Engineering
Miami
+1-305-420-1801 | dwills@exponent.com

Professional Profile

Mr. Wills addresses issues related to failure and nonperformance analysis of engineered materials including metals, ceramics, polymers, and composites. He has metallurgical and materials engineering experience, which includes corrosion analysis, especially marine corrosion analysis, and the corrosion analysis of piping systems.

Mr. Wills performs fracture analysis of materials using photography, microscopy, metallography, and scanning electron microscopy techniques. Other areas of expertise include fabrication and machining methods, tube and heat exchanger fabrication, and prototype development. Mr. Wills has experience with welding and cutting methods and performs weld inspections.

He analyzes surface coating applications and properties. He conducts fire investigations. He also has particular experience with aluminum process metallurgy; aluminum ingot casting technology and machinery, and aluminum extrusion machinery, tooling, dies, and materials. In the area of accident investigation, Mr. Wills addresses industrial and marine equipment failures, slip and fall issues, boating, and marine accidents. Mr. Wills is trained in underwater inspection and photography. He has provided consultation to the boating, yachting and cruise ship industry for many years.

Academic Credentials & Professional Honors

M.B.A., Business Administration, Nova University, 1985

B.S., Metallurgical Engineering, University of Missouri, Rolla, 1977

Licenses and Certifications

Professional Engineer, Florida, #41264

Professional Engineer, Missouri, #2017027414

American Boat & Yacht Council (ABYC) Advisor Certification-Marine Systems

American Boat & Yacht Council (ABYC) Marine Accident Investigation

American Boat & Yacht Council (ABYC) Master Technician Certification

American Boat & Yacht Council (ABYC) Metal Corrosion in Boats

American Boat & Yacht Council (ABYC) Technical Certification-Diesel Engines

American Boat & Yacht Council (ABYC) Technical Certification-Marine Corrosion

American Boat & Yacht Council (ABYC) Technical Certification-Marine Electrical

American Welding Society Certified Welding Inspector (CWI)

Certified Fire and Explosion Investigator (CFEI)

Certified Vehicle Fire Investigator (CVFI)

Prior Experience

Plant Manager, Continuous Extruded Products, Inc. (Kaiser Aluminum), 1985-1988

Senior Research Metallurgist-Extrusions, Atlantic Richfield Metals R&D, 1982-1984

Development Engineer, Anaconda Aluminum Extruded Products, 1980-1982

Ingot Process Engineer, Anaconda Aluminum, Sebree Reduction Facility, 1978-1980

Professional Affiliations

American Society for Materials (member and past chapter chairperson)

American Welding Society (member and past chapter chairperson)

The American Boat and Yacht Council (member)

American Society for Testing & Materials (member)

Publications

Hoffman JM, Reitman M, Donthu S, Ledwith P, Wills D. Microscopic characterization of CPVC failure modes. Proceedings, ANTEC 2009, Society of Plastics Engineers, Chicago, IL, June 2009. Best Paper Award in Failure Analysis & Prevention.
