

Engineering & Scientific Consulting

Edie Sanders, Ph.D.

Scientist | Human Factors Atlanta

+1-678-412-4886 | esanders@exponent.com

Professional Profile

Dr. Sanders has expertise in cognitive psychology including learning, memory, perception, emotion, and decision-making. She has analyzed how such processes change with age and how such changes may affect the way a person interacts with products and/or their environment. At Exponent, she applies her expertise with projects involving memory recall and recognition, warnings and instructions evaluations, consumer product and medical device user testing, and driver and pedestrian behavior, with specific expertise in assessing such interactions with older adult populations.

Dr. Sanders earned her Ph.D. in Cognitive Psychology from Florida State University and completed postdoctoral work at Weill Cornell Medicine. Her research focused on the benefits and limitations of technology to support independence and wellbeing in older adulthood. She has investigated a variety of technologies – including wearable devices – supporting prospective memory, transportation, and health. She is experienced in experimental techniques including quantitative and qualitative usability research, intervention efficacy trials, and cognitive assessments targeting memory and reasoning. She is proficient in experimental design, statistical analysis, scientific writing and communication, and project management.

Academic Credentials & Professional Honors

Ph.D., Cognitive Psychology, Florida State University, 2024

M.S., Cognitive Psychology, Florida State University, 2022

B.S., Psychology, University of Richmond, 2018

2024, CREATE Graduate Student Investigator Pilot Research Grant

2023, Mark & Gloria Charness Cognitive Science Award

2023, Runner-up in the RESNA Student Scientific Paper Competition

2023, Ermine M. Owenby, Jr. Travel Award

2022, Best Poster Presenter in STEM, Florida State University Fellows Forum

2018, Summa Cum Laude with Psychology Honors, University of Richmond

2018, Outstanding Undergraduate Student Award in Psychology

2017, John Neasmith Dickinson Memorial Research Award in Psychology

2017, Arts & Sciences Summer Research Fellowship

Prior Experience

Postdoctoral Research Associate, Center on Aging and Behavioral Research, Weill Cornell Medicine, 2024-2025

Research Assistant, Center for Enhancing Neurocognitive Health, Networks, and Community Engagement (ENHANCE), Florida State University, 2019-2024

Lab Coordinator, Berry Lab, University of Richmond, 2017-2019

Professional Affiliations

2024, American Psychological Association, Division 20 Executive Committee Awards Co-Chair

2024, International Society for Gerontechnology

2023, Human Factors and Ergonomics Society

2023, Rehabilitation Engineering and Assistive Technology Society of North America

2021, American Psychological Association Division 5 Member (Quantitative and Qualitative Methods)

2020, The Gerontological Society of America

2020, American Psychological Association Division 21 Member (Applied Experimental and Engineering Psychology)

2018, American Psychological Association Division 3 Member (Experimental Psychology and Cognitive Science)

2018, American Psychological Association Division 20 Member (Adult Development and Aging)
