Exponent®
Engineering & Scientific Consulting

Jacques De Beer, Ph.D., CFEI

Manager | Thermal Sciences
Bowie
+1-301-291-2544 | jdebeer@exponent.com

Professional Profile

Dr. De Beer is a fire safety expert with multidisciplinary expertise in fire protection, mechanical, and chemical engineering. He applies his expertise to the investigation and prevention of a broad spectrum of thermal and injurious events. Dr. De Beer investigates and analyzes residential, commercial, and industrial fires and explosions and their origin and cause.

Dr. De Beer's fire safety project experience includes fire protection and life safety systems, flammable and combustible liquids, electrostatic discharge incidents, hazardous chemicals, smoke alarms, hot work incidents, wildfires, oxygen-enriched systems, gas distribution systems and fuel-fired equipment, photovoltaic systems, batteries and battery energy storage systems (BESS), electric vehicles, and emergency response planning. Dr. De Beer has experience evaluating the compliance of a myriad of products, materials, processes and systems according to national and international codes and standards – NFPA, ICC, EN, ISO, API, AWS, OSHA, and UL. Dr. De Beer also has experience using fire modeling tools such as Fire Dynamics Simulator (FDS) and Consolidated Fire and Smoke Transport (CFAST)

Academic Credentials & Professional Honors

Ph.D., Mechanical Engineering, University of Maryland, College Park, 2023

M.S., Fire Protection Engineering, University of Maryland, College Park, 2020

B.Eng., Chemical Engineering, University of Pretoria, South Africa, 2017

Principal Member: NFPA 77, Recommended Practice on Static Electricity, STA-AAA Technical Committee, National Fire Protection Association, 2025 – present

Principal Member: NFPA 1960, Standard for Fire Hose Connections, Spray Nozzles, Manufacturer's Design of Fire Department Ground Ladders, Fire Hose, and Powered Rescue Tools, FHS-AAA Technical Committee, National Fire Protection Association, 2024 – present

Alternate Member: NFPA 30, Flammable and Combustible Liquids Code, FLC-FUN Technical Committee on Fundamentals of Flammable and Combustible Liquids, National Fire Protection Association, 2024 – present

Alternate Member: NFPA 54, National Fuel Gas Code, NFG-AAA Technical Committee, National Fire Protection Association, 2024 – present

Task Group Member: API 2001, Fire Protection in Refineries, 2025 - Present

Task Group Member: API 2003, Protection Against Ignitions Arising Out of Static, Lightning, and Stray Currents, 2025 – Present

Task Group Member: API 2009, Safe Welding, Cutting, and Hot Work Practices in the Petroleum and Petrochemical Industries, 2025 - Present

Task Group Member: API 2030, Application of Fixed Water Spray Systems for Fire Protection in the Petroleum and Petrochemical Industries, 2025 - Present

Licenses and Certifications

40-Hour Hazardous Waste Operation and Emergency Response Certification (HAZWOPER) (FL)

Certified Fire and Explosion Investigator (CFEI)

Professional Affiliations

Society of Fire Protection Engineers (SFPE)

National Fire Protection Association (NFPA)

International Association of Arson Investigators (IAAI)

National Association of Fire Investigators (NAFI)

National Fire Sprinkler Association (NFSA)
