## Nega Beru, Ph.D.

Senior Managing Scientist | Chemical Regulation and Food Safety  
Washington DC  
+1-240-463-1579 | [nberu@exponent.com](mailto:nberu@exponent.com)

### Professional Profile

Before joining Exponent on April 16, 2018, Dr. Beru served as the Director of the Office of Food Safety in FDA's Center for Food Safety and Applied Nutrition (CFSAN) from August 2006 to December 2017. In that capacity he provided leadership on public health policy and regulatory issues for about 200 food safety professionals in four policy division and two staffs (Division of Plant Products and Beverages, Division of Produce Safety, Division of Dairy, Egg, Meat Product Safety, Division of Seafood Safety, Retail Food Protection Staff, and Multi-Commodity Foods Staff) as well as two research divisions (Division of Food Processing Science and Technology and Division of Seafood Science and Technology). He oversaw the development and issuance of several regulations as well as guidances for industry.

Previously, he served as Associate Director of the Office of Plant and Dairy Foods (predecessor to the Office of Food Safety) from January 2005 to July 2006. From December 1999 to December 2004, Dr. Beru served as Director of the Division of Plant Product Safety in that office. Between 1991 when he joined FDA and 1999, he worked in the Office of Food Additive Safety, where among other duties, he oversaw industry consultations with FDA regarding foods derived from genetically engineered plants as a consumer safety officer and later as a team leader in the Biotechnology Policy Branch.

Dr. Beru received a bachelor's degree in the biological sciences in 1974 from the University of Chicago, and a Ph.D. in Biochemistry from the Department of Biochemistry and Molecular Biology in 1983 also at the University of Chicago. He stayed on in the department as a postdoctoral research associate/instructor and joined the faculty of the Department of Medicine, Section of Hematology/Oncology in 1988 where he became a research associate/assistant professor before joining FDA in 1991. Dr. Beru served as head of the US Delegation to the Codex Committee on Contaminants in Foods from 2007 to 2015.

### Academic Credentials & Professional Honors

Ph.D., Biochemistry, University of Chicago, 1983

M.S., Biochemistry, University of Chicago, 1979

B.S., Biological Sciences, University of Chicago, 1974

#### Significant and Recent Honor Awards

FDA's Special Act or Service Award for work on the Flavr Savr tomato, 1994.

FDA's Commendable Service Award for outstanding performance in the evaluation of scientific data and the clear presentation of findings concerning the first whole food developed using recombinant DNA technology, 1995.

FDA's Award of Merit for outstanding performance in expediting a decision on the olestra food additive

petition, 1996.

FDA's Commendable Service Award for outstanding performance in establishing and administering procedures to review and consult with developers of new, genetically engineered varieties of plants to be used for food, 1999.

CFSAN's Quality Performance Award for sustained excellent performance in managing the Office responsibilities for genetically engineered foods, 1999.

FDA's Group Recognition Award for outstanding performance in the development of the FDA guidance for industry, regarding the use of antibiotic resistance genes as selectable markers in transgenic plants, 1999.

FDA's Group Recognition Award for outstanding exceptional performance in organizing meetings that enabled a diverse and concerned public to productively participate in the Agency's policy process for bioengineered food, 2000.

CFSAN's Team Award for efforts to manage the regulatory problem with StarLink corn, developing a methodology testing for the presence of residues, and coordinating with EPA and USDA, 2001.

FDA's Commissioner's Special Citation as a member of the Bioterrorism Act Recordkeeping Final Rule Team for extraordinary contributions in reviewing public comments and drafting the final rule to implement the establishment and maintenance of records under the Bioterrorism Act provision, 2005.

FDA's Outstanding Service Award for outstanding effort in developing guidance on the recommended maximum lead levels in candy, 2006.

CFSAN's Exceptional Achievement Award as a member of the Allergen Threshold Workgroup for outstanding contributions in constructing a comprehensive, cohesive analysis of available strategies and supporting data for establishing indices of success in controlling food allergens and gluten in food, 2006.

CFSAN's Team Spirit Award as a member of the Fresh-Cut Team for outstanding effort in developing guidance for industry to minimize food safety hazards for fresh-cut fruits and vegetables, 2006.

FDA Commissioner's Special Citation as a member of FDA's TOPOFF 3 Exercise Group for significant contributions to the Nation's preparedness goals through planning and participation in the TOPOFF 3 Terrorism Exercise series, 2006.

FDA Group Recognition Award for outstanding efforts in developing the report to Congress required by the Food Allergen Labeling and Consumer Protection Act, 2007.

FDA Leveraging/Collaboration Award as a member of the Leafy Greens Safety Initiative Group for collaboration and leveraging in the implementation of the Leafy Greens Safety initiative resulting in improved infrastructure, public health preparedness, and research partnerships, 2007.

FDA Leveraging/Collaboration Award in recognition of the outstanding interagency cooperation in response to the discovery of polonium in Nevada well water, 2008.

FDA Group Recognition Award as a member of the Salmonella in Peanut Butter Outbreak Response Group in recognition of the significant interagency response to the Salmonella Tennessee outbreak associated with peanut butter, 2008.

FDA Group Recognition Award as a member of the FDA TOPOFF 4 Exercise Group for exceptional participation in and support of FDA's role in TOPOFF 4, the most comprehensive congressionally mandated full-scale multi-faceted terrorism exercise conducted in the US, 2008.

FDA Group Recognition Award as a member of the Botulinum Toxin Response Group in recognition of the superior collaboration and response to the outbreak of botulinum toxin in canned chili sauce, 2008.

FDA Commissioner's Special Citation Award for superior achievement in FDA's Emergency Operations Center's coordination of the Agency's Salmonella Saint Paul outbreak response activities, 2009.

CFSAN Legacy Award as a member of the CFSAN Leadership Development Board for successfully launching Leaders Developing Leaders Program, continuing to improve and achieve intended goal, developing leaders with competencies for next generation Center mission challenges anticipated, 2010.

FDA Produce Safety Outreach and Collaboration Team award for excellence in developing and executing a strategy to reach out to diverse groups of farmers who will be affected by new produce safety regulations, 2011.

FDA Group Recognition Award for providing exceptional technical expertise in the review, assessment and evaluation of microbiological sampling projects during the prioritization effort, 2011.

CFSAN Group Recognition Award as a member of The Egg Safety Rollout Team for successful presentation of the egg safety rule at a series of public meetings, 2011.

FDA Plain Language Award as a member of the FDA Budget Formulation Narrative Group for 6 clearly documenting how FDA public health programs promote efficiency and generate savings for patients, consumers and industry stakeholders, 2011.

FDA Group Recognition Award for exceptional contribution and outstanding dedication to the agency's response effort in the aftermath of Hurricane Sandy, 2013.

FDA Commissioner's Special Citation as member of the crisis and communication and engagement team, 2015.

Institute for Food Safety and Health Lifetime Achievement Award, 2017.

CFSAN Director's Distinguished Career Service Award, 2017.

FDA Commissioner's Distinguished Career Service Award, 2017

## Prior Experience

### **Career at FDA, Center for Food Safety and Applied Nutrition**

Director, Office of Food Safety

August 2006 to December 2017

Associate Director, Office of Plant and Dairy Foods

January 2005 to July 2006

Director, Division of Plant Products Safety

December 1999 to December 2004

Consumer Safety Officer and then Team Leader in the Biotechnology Policy Branch in the Office of Premarket Approval

December 1991 to November 1999

## **Pre-FDA Career**

Research Associate/Assistant Professor in the Department of Medicine (Section of Hematology/Oncology) at the University of Chicago

July 1988 to November 1991

Research Associate/ Instructor in the Department of Biochemistry and Molecular Biology at the University of Chicago

January 1984 to June 1988

Lecturer, Department of Biology, Addis Ababa University

September 1976 - September 1978

Researcher/writer, Curriculum Development Center, Ministry of Education of Ethiopia

July 2074 to August 2076

## **Professional Affiliations**

Institute of Food Technologists

International Association for Food Protection

## **Publications**

### **Books**

Biological Science: Students' Text for Grade 11. M. Ingle, N. Beru, M. Tadesse, A. Teklei, M. Asras, and R. Hagos. Berhan Ena Selam Printing Press, Addis Ababa, 1978.

Biological Science: Teachers' Guide for Grade 11. M. Ingle, N. Beru, M. Tadesse, A. Teklei, M. Asras, and R. Hagos. Berhan Ena Selam Printing Press, Addis Ababa, 1978.

Biological Science: Students' Text for Grade 12. Ingle, M. Asras, R. Hagos, N. Beru, G. Wood Z. Asfaw, and K. Dagne. Berhan Ena Selam Printing Press, Addis Ababa, 1980.

Biological Science: Teachers' Guide for Grade 12. M. Ingle, M. Asras, R. Hagos, N. Beru, G. Wood, Z. Asfaw, and K. Dagne. Berhan Ena Selam Printing Press, Addis Ababa, 1980.

### **Chapters**

Goldwasser, E., McDonald, J. and Beru, N. (1987) The Molecular Biology of Erythropoietin and the Expression of its Gene. In: Molecular and Cellular Aspects of Erythropoietin and Erythropoiesis.

I.N. Rich, ed., pp. 11-21. Springer-Verlag, Heidelberg.

Goldwasser, E., Beru, N. and Smith, D. (1990) Erythropoietin. In: Colony Stimulating Factors; Molecular and Cellular Biology. M. Dexter, J.M. Garland and N.G. Testa, eds., pp. 257-276. Marcel Dekker, Inc., New York.

Goldwasser, E., Beru, N. and Smith, D. (1990) Erythropoietin: The Primary Regulator of Red Cell Formation. In: Handbook of Experimental Pharmacology: Peptide Growth Factors and Their Receptors, M. B. Sporn and A.B. Roberts, eds., V. 95I, pp. 747-770. Springer-Verlag, Heidelberg.

Hermine, O., Beru, N., Pech, N., and Goldwasser, E. (1992) An Autocrine Role for Erythropoietin. In Molecular Biology of Hematopoiesis, V. 2, N. G. Abraham, et al. eds., pp. 73-77. Intercept Ltd., U.K.

48. Overview of Registration and Prior Notice Proposed Regulations Implementing the Bioterrorism Act. American Whole Sellers Association, Washington, DC, March 21, 2003.
49. Overview of FDA's Proposed Regulations Implementing the Bioterrorism Act and Food Security Guidelines. Annual Meeting of the American Oil Chemists Society, Kansas City, MO, May 7, 2003.
50. Overview of FDA's Proposed Regulations Implementing the Bioterrorism Act, American Fisheries Institute, Washington, DC, May 21, 2003.
51. Overview of the Proposed Regulations Implementing the Bioterrorism Act, Simultaneous Video Cast to Eight Central and Latin American Countries, World Bank, Washington, DC, June 12, 2003
52. The Recordkeeping Proposed Rule Implementing Section 306 of the Bioterrorism Act, International Bottled Water Association, Washington, DC, June 19, 2003
53. Proposed Regulations Implementing the Bioterrorism Act, at the JIFSAN/FDA workshop on good agricultural practices, Veracruz, Mexico, July 28 to August 1, 2003.
54. Overview of the regulations implementing the Bioterrorism Act at the Florida Fruits and Vegetable Association Convention, Key Biscayne, Florida, September 23, 2003
55. Proposed Regulations Implementing the Bioterrorism Act, International Pharmaceutical Excipients Council of the Americas, Washington, DC, October 1, 2003
56. Presentations on FDA's Regulations Implementing the Bioterrorism Act at two workshops at the annual convention of the Produce Marketing Association, Orlando, FL October 18 and 20, 2003.
57. Presentation on FDA's Perspective on the Perchlorate Issue, workshop at the annual convention of the Produce Marketing Association, Orlando, FL, October 19, 2003.
58. Presentation on the Juice HACCP Regulation at the Worldwide Food Expo, Chicago, Illinois, October 30, 2003
59. Fresh Produce Outbreaks in the US and Possible Sources of Contamination at the UFFVA/FMI Annual Convention, Chicago, IL, May 3, 2004.
60. Good Agricultural Practices Produce Safety Initiatives 1997-2004 at the UFFVA/FMI Annual Convention, Chicago, IL, May 3, 2004.
61. Moderator of the public meeting on FDA's draft produce safety action plan held in College Park, MD, June 29, 2004.

62. FDA's Imported and Domestic Produce Surveys, American Chemical Society Annual Meeting, Philadelphia, PA, August 26, 2004.
63. FDA's Produce Safety Action Plan, Annual Meeting of the Produce Marketing Association Anaheim, CA, October 18, 2004.
64. FDA's Produce Safety Action Plan, Webcast organized by United Fresh Fruits and Vegetables Association, November 16, 2004.
65. Recordkeeping rule under the Bioterrorism Act, Alliance for Food Safety and Security, December 15, 2004
- 66 - 78. Presentations and outreach meetings for the recordkeeping rule under the Bioterrorism Act of 2002
- Chicago, IL public meeting, January 25, 2005
- Orlando, FL public meeting, January 27, 2005
- Boston, MA public meeting, February 1, 2005
- Webcast, United Fresh Fruits and Vegetables Assn, February 3, 2005
- Presentation for ORA's Public Affairs Specialists and Small Business Reps, Feb 9, 2005
- National Food Processors Association, Feb 10, 2005
- Ohio State University meeting in Columbus organized for the food industry, Feb. 16, 2005
- ORA University downlink for field staff, March 3, 2005
- Fifty-state call, April 14, 2005
- Los Angeles, CA public meeting, June 8, 2005
- Webinar by Xtalks, January 17, 2006
- Webinar by International Warehouse Logistics Association, Jan 25, 2006
79. Overview of FDA's recent activities regarding contaminants in foods. Workshop on Risk Analysis/Risk Communication Related to the Occurrence of Emerging Chemicals in Food, Ottawa, Canada, March 23-24, 2006.
80. Produce Safety Initiative/Produce Safety Action Plan, Tomato Forum, Orlando, FL, November 30, 2006.
81. Produce Safety Initiative/Produce Safety Action Plan, FMI Workshop on Leafy Greens, Phoenix, AZ, December 2006.
82. FDA's Incidence Prevention Activities, International Workshop on Identifying Future Threats to Food Safety, Organized by UK FSA, March 5-6, 2007.
83. The spinach outbreak and leafy greens initiative, Second Congress: Approaches to Risk Management throughout Product Life Cycles Advanced/FDA/Virginia Tech, May 16, 2007,

84. Roundtable Discussion on Research Needs, Workshop on the Role of Testing in the Safety of Fresh Produce, Oaklawn, IL, May 30-31, 2007.
85. Current FDA Initiatives in Produce Safety, Workshop on the Microbial Safety of Produce in Canada: Current and Future State of Affairs, June 19, 2007.
86. Action Plan to Reduce Illnesses Associated with Consumption of Produce, Florida Association of Public Health Officials Annual Meeting, Tampa, FL August 2, 2007
87. FDA Activities Relating the Safety of Fresh Produce, Consumer Federation of America Annual National Food Policy Conference, Washington, DC, September 27, 2007.
88. How is FDA Addressing Food Safety Issues under its Existing Statutory Authorities, FDLI Conference, Washington, DC, January 24, 2008.
89. Chemical and Microbial Contamination in the US Food Supply: The View from the US FDA, 33rd Annual Winter Meeting of the Toxicology Forum, Washington, DC, January 31, 2008.
90. The Future Global Food Safety System, Go Global: Food Processing and Safety: An International Conference, Honolulu, HI, February 26, 2008
91. FDA perspectives on produce safety; Symposium on Produce Safety in Conjunction with the Conference for Food Protection, San Antonio, TX, April 11, 2008.
92. Overview of Chemical Contaminants in Foods, American Chemical Society Annual Meeting, New Orleans, LA., April 9, 2008
93. Fresh Produce Safety, 15th Inter-American Meeting at Ministerial Level on Health and Agriculture, Rio de Janeiro, Brazil, June 11-12, 2008
94. Outbreak of Salmonellosis Linked to Tomatoes: International Tomato Congress, Leon, Mexico, July 23, 2008
95. Panel Discussion on Global Challenges of Delivering Safe and Nutritious Food, 2008 National Center for Food Safety and Technology Annual Meeting, Oakbrook, IL, October 16, 2008
96. Mycotoxins in Food and Feed - An FDA Perspective, the 5th World Mycotoxin Forum, Noordwijk, The Netherlands, Nov 17-18, 2008.
97. Salmonella Saintpaul Outbreak: Lessons Learned and Future Perspectives, Center for Food Safety Annual Meeting, Atlanta, GA, March 3-4, 2009
98. FDA Report at the National Conference of Interstate Milk Shipments, Orlando, FL, April 19, 2009
99. Managing Chemical Contaminants in Foods, IAFP, July 13, 2009, Grapevine, Texas.
100. Food Safety Policy and Legislation on the Radar. IAFP, July 13, 2009, Grapevine, Texas,
101. Managing Chemical Contaminants in Foods, Annual AOAC International Meeting, Philadelphia, PA, September 15, 2009
102. Development of FDA's Final Rule: Prevention of SE in Shell Eggs during Production, Transportation, and Storage, Public Meeting in Chicago, September 30, 2009.
103. FDA perspective on produce safety, Georgetown Produce Safety Project Stakeholder Meeting, Columbus, OH, March 11, 2010.

104. The Regulatory Landscape - National and Global, National Restaurant Association Educational Workshop regarding "The Facts about Acrylamide and Mitigation Approaches for Restaurants." Washington, DC, May 25, 2010
105. Overview of FDA's Chemical Contaminants in Foods Program; The National Academies of Science's Board on Environmental Studies and Toxicology, Washington, DC, July 19, 2010
106. FDA Foods Program Update: Current Activities and Future Considerations; Food Regulatory and Quality Assurance Summit, Toronto, Canada, October 20, 2010.
107. Overview of Chemical Contaminants in Food, National Center for Food Safety and Technology Annual Meeting, Oakbrook, IL, October 26, 2010
108. FDA Perspectives on Spice Food Safety, Annual Meeting of the International Pepper Community, Cochin, India, November 9, 2010.
109. Food Safety Modernization Act Outreach United Fresh Government Relations Council, February 15, 2011, Washington, D.C.
110. FDA Report at the National Conference of Interstate Milk Shipments, Baltimore, MD May 1, 2011
111. FDA Update on Acrylamide in Food, IFT Annual Meeting, New Orleans, LA June 14, 2011
112. Food Safety Modernization Act Outreach, Institute of Edible Oils and Shortenings Board of Directors, September 28, 2011
113. Mycotoxins in Food: An FDA Perspective, IIT IFSH/UW FRI Mycotoxin Symposium, April 12, 2012, Rosemont, IL.
114. The FDA Report, Biennial Meeting of the Conference for Food Protection, April 14, 2012, Indianapolis, IN.
115. Chemical Contaminants in Foods: They are there but are they unsafe? Institute for Food Safety and Health Annual Meeting, September 20, 2012, Burr Ridge, IL
116. FDA Report at the National Conference of Interstate Milk Shipments, Indianapolis, IN April 21. 2013
117. Arsenic in Food: FDA Activities, IFT Annual Meeting, Chicago, IL July 15, 2013
118. Mycotoxins in Food: An FDA Perspective, Joint Special Meeting of the Toxicology Forum and Regulatory Governance Initiative, Ottawa, Canada, September 19, 2013
119. Chemical Contaminants in Foods, GMA Chemical Management Committee, Washington, DC, April 9, 2014
120. Current Issues in Chemical Contaminants in Foods, OARSA Seminar, Beltsville, MD April 17, 2014
121. FDA's Food Safety Priorities for the Dairy Industry, IDFA Regulatory Roundup, Washington, DC, June 25, 2014.
122. CFSAN Update, Shelf-Stable Food Processors Association, Washington, DC, October 16, 2014
123. FDA Report, National Conference on Interstate Milk Shipments, Portland, OR, April 26, 2015
124. Regulatory Approaches to Process-Formed Compounds, ILSI North America Workshop on Risk

Based Process for Mitigation of Process Formed Compounds, Washington, DC, May 12, 2015

125. United States and International Risk Management Options for Food Borne Chemical Contaminants, Joint Institute for Food Safety and Applied Nutrition Course on Risk Assessment, College Park, MD, October 29, 2015

126. Chemical Signals Detection, Meeting of the International Food Chemical Safety Liaison Group, Rotterdam, the Netherlands, April 8, 2016.

127. FDA Update on Arsenic in Rice, Meeting of the International Food Chemical Safety Liaison Group, Rotterdam, the Netherlands, April 9, 2016.

128. FDA Report, Conference for Food Protection, Boise, Idaho, April 16, 2016.

129. Mycotoxins in Food and Feed: An FDA Perspective in a Changing World, Joint Meeting of the 9th Conference of the World Mycotoxin Forum and the XIVth IUPAC International Symposium on Mycotoxins, Winnipeg, Canada, June 6, 2016.

130. FDA Update, American Cheese Society Annual Meeting, Des Moines, Iowa, July 29, 2016

131. FDA Report, National Conference of Interstate Milk Shipments, Grand Rapids, MI, May 14, 2017
