

Exponent[®]
Engineering & Scientific Consulting

Philip Bolger, Ph.D., DABT

Senior Managing Scientist | Chemical Regulation and Food Safety
Washington DC
+1-202-815-9994 | mbolger@exponent.com

Professional Profile

Dr. Bolger is a board-certified toxicologist by the American Board of Toxicology. Since 1980, he has been involved in the hazard, safety, and risk assessment of anthropogenic and naturally derived contaminants in food. Dr. Bolger received his Bachelor's Degree in biology from Villanova University and his Doctoral Degree in physiology and biophysics from Georgetown University.

After a three year postdoctoral position at the Georgetown University Medical Center, he became a staff fellow in toxicology with the Bureau of Foods in the U.S. Food and Drug Administration (FDA). Upon completion of his staff fellowship, he accepted a position as a toxicologist with the Contaminants Branch at the FDA.

Prior to joining Exponent, Dr. Bolger was the Director of the Chemical Hazards Assessment staff in the Office of Food Safety, which is responsible for the hazard, safety, and risk assessment of food borne contaminants, and for reporting FDA monitoring efforts on food-borne environmental contaminants and the conduct of exposure assessments. Dr. Bolger is currently serving as a food safety expert of the World Health Organization and as a member of the Joint Expert Committee on Food Additives and the Foodborne Disease Burden Epidemiology Reference Group of the World Health Organization.

Dr. Bolger is the recipient of the 2009 Arnold J. Lehman Award conferred by the Society of Toxicology and the 2010 Outstanding Risk Practitioner Award conferred by the Society of Risk Analysis.

Academic Credentials & Professional Honors

Ph.D., Physiology and Biophysics, Georgetown College, 1976

B.S., Biology, Villanova University, 1971

Outstanding Risk Practitioner of the Year Award, Society of Risk Analysis, December 2010

Commissioner's Special Citation, "For significant achievement in protecting public health through the method development and sample analysis of pear juice products for toxic inorganic arsenic species," June 2009

Arnold J. Lehman Award, Society of Toxicology "In recognition of his major contributions to risk assessment and the regulation of chemical agents," March 2009

Appointed as member to the Foodborne Disease Burden Epidemiology Reference Group of the World Health Organization, October 2009

Appointed to the organizing committee for the workshop on establishing methodologies for assessing cancer risk from intermittent or short-term exposure to carcinogens of the International Life Sciences Institute, March 2009

Appointed to the steering committee for the workshop on evaluating epigenetic changes of the International Life Sciences Institute, June 2008

FDA Commissioner's Special Citation Award for exemplary performance to protect the public health from adulterated protein – 2008

FDA Leveraging/Collaboration Award for interagency cooperation in response to polonium in well water – 2008

Member of the organizing committee of the ILSI workshop on the Application of the Margin of Exposure Approach to Genotoxic Carcinogens in Food–2007

Member to the Foodborne Disease Burden Epidemiology Reference Group of the World Health Organization–2008

Advisor to the Foodborne Disease Burden Epidemiology Reference Group of the World Health Organization–2007

FDA Outstanding Service Award, Lead in Candy Guide Group award–2006

FDA/CFSAN Exceptional Achievement Award, Allergen Threshold Workgroup–2006

FDA/CFSAN's Furan Development Team Award–2005

Reappointed as Food Safety Expert of the World Health Organization – 2000.

Charles C. Shephard Science Award, Center for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry–2004

FDA Leadership Award for exceptional contributions in providing leadership in JECFA assessments on cadmium and methylmercury, 2003.

FDA Group Recognition Award, Mycotoxin Work, Group, 2002

FDA Leadership Award for rapidly and effectively prioritizing potential chemical threat agents for foods, 2002

Appointed to the Steering Group of the Project to Update Principles and Methods for the Risk Assessment of Chemicals in Food of the World Health Organization 200

Member of the Expert Advisory Panel on Food Safety of the World Health Organization, appointed in 2000

Appointed as Food Safety Expert of the World Health Organization – 2000.

CFSAN's Leadership Award – For exceptional leadership in directing CFSAN chemical health hazard and risk assessments – 1999

FDA Group Recognition Award – 1998 (For meritorious service in the completion of a multi-agency dioxin investigation contribution to significant consumer protection while also minimizing economic impact on industry)

Society of Toxicology Media contact specialist – appointed in 1997 and serving to the present time

Councilor, Risk Assessment Specialty Section, Society of Toxicology, 1997–1999

Candidate for Councilor, Risk Assessment Specialty Section of the Society of Toxicology–1997

Member, Selection Committee for the Risk Assessment Specialty Section of the Society of Toxicology–1996

FDA Group Recognition Award, Wheat Contamination Response Group, 1996

Candidate for Councilor, Risk Assessment Specialty Section of the Society of Toxicology–1995

FDA Group Recognition Award–1996 (For dedication and effective use of resources in responding to the severe contamination of the 1993 wheat and barley crops with the mycotoxin deoxynivalenol)

Public Health Service Special Recognition Award, Department of Health and Human Services–1993 (For leadership in dealing with the hazard and risk assessment of contaminants in seafood and other food)

Appointed to Center for Safety and Applied Nutrition, FDA's Human Health Haz

Licenses and Certifications

Diplomate of the American Board of Toxicology (DABT)

Prior Experience

Supervisory/Expert Physiologist/Toxicologist and Chief of the Chemical Hazards Assessment Team, Office of Food Safety, Center for Food Safety and Applied Nutrition (CFSAN)/ Food and Drug Administration (FDA), 2000-2012

Supervisory Physiologist/Toxicologist and Chief of the Contaminants Standards, Monitoring and Program, Division of Programs and Enforcement Policy, Office of Plant and Dairy Foods and Beverages, Center for Food Safety and Applied Nutrition (CFSAN)/ Food and Drug Administration (FDA), 1986-2000

Review Physiologist/Toxicologist in the Contaminants and Natural Toxicants Evaluation Branch/ Division of Toxicology/CFSAN/FDA, 1980-1986

Staff Fellow Physiologist/Toxicologist in the Colors and Cosmetics Evaluation Branch/ Division of Toxicology/ Bureau of Foods/ Food and Drug Administration, 1978-1980

Postdoctoral Research Associate in the Department of Physiology and Biophysics/ Georgetown University Medical Center, Washington, DC, 1976-1978

NIH Pre-doctoral Research Trainee (U.S.P.H.S. Training Grant HL 05527), Department of Physiology and Biophysics, Georgetown University Medical Center, 1973-1976
