Engineering & Scientific Consulting

Sarvenaz Vandyousefi, Ph.D., RD

Senior Scientist | Chemical Regulation and Food Safety

Washington DC

+1-202-772-4913 | svandyousefi@exponent.com

Professional Profile

Dr. Vandyousefi is a Registered Dietitian with a broad background in diet and nutritional sciences specializing in diet and nutrition assessment in the context of childhood and adult obesity research. She has expertise in dietary intake assessments, evaluation of the safety and efficacy of food ingredients and dietary supplements, critical reviews of nutrition science information, designing research protocols and surveys, as well as managing clinical trials. As part of Dr. Vandyousefi's clinical research in the field of nutrition, she has conducted literature searches, analyzed and interpreted dietary and health outcomes data, analyzed and synthesized nutrition and food safety clinical data, and written numerous scientific reports and papers.

Dr. Vandyousefi obtained her Ph.D. in Nutritional Sciences in August 2019 from the University of Texas at Austin Department of Nutrition. Her doctoral research examined the role of early life infant feeding practices on child growth, obesity risk, and metabolic changes among offspring of mothers with and without gestational diabetes mellitus. Throughout her doctoral tenure, Dr. Vandyousefi was awarded two pilot grants. The first grant titled "Austin School Gardens: Assessing the landscape of gardening schools around Austin" was funded by the City of Austin, Office of Sustainability and the second pilot grant was funded by the Academy of Nutrition and Dietetics "Pilot Study: Behavioral, Environmental, and Policy Factors Influencing Childhood Obesity". The pilot grant from the Academy of Nutrition and Dietetics was to collect data from WIC clinics across the Austin area and examine the association of behavioral, environmental, and policy factors with childhood obesity among Hispanic youth. In addition, she served as a wet lab manager on a large NIH funded trial, which involved designing protocols for blood processing, and supervising and training many students and staff on these procedures, overseeing lab safety, and assisting with anthropometric measurements. Dr. Vandyousefi's doctoral studies resulted in four first authored and 20 co-authored publications.

Upon completion of her doctorate, Dr. Vandyousefi served as a postdoctoral fellow at New York University Grossman School of Medicine, Department of Pediatrics. Her postdoctoral research primarily focused on accurately conceptualizing and measuring appetite traits during infancy and early childhood and understanding how appetite traits are associated with weight trajectories and obesity risk between children 3-5 years of age, infant and child diet, parental feeding styles, and exposure to intrauterine stressors (e.g., diabetes, high blood pressure, and environmental pollutants).

Upon completion of her 2-year term postdoctoral fellowship at the Pediatrics Department, Dr. Vandyousefi transitioned to the MOTIVATE obesity research lab at New York University Grossman School of Medicine, Department of the Medicine as a postdoctoral fellow. Through this position, she expanded her knowledge in the area of obesity and developed experience with clinical trials in adults exploring intergenerational transmission of obesity. Specifically, she served as the project manager of the large and complex VA-funded "WOOP VA" study at the NY Harbor VA Hospital, which aims to evaluate interventions designed to increase Mental Contrasting and Implementation Intentions (MCII) and MOVE!

weight loss programs engagement in VA adults. Besides leading a team of ten research interns and assistants, Dr. Vandyousefi has been contributing to research protocol and survey design, data analyses, and manuscript and scientific report writing.

In addition to an active research agenda and project management experience in clinical studies of obesity, Dr. Vandyousefi has experience in food science and food safety through her investigation of the effectiveness of antibacterial, antiviral, and antifungal properties of essential oils and plants. Her Master's thesis investigated the efficacy of application of cinnamon oil-chitosan emulsion coating in increasing the internal quality and shelf life of shelled eggs.

Dr. Vandyousefi is a member the Academy of Nutrition and Dietetics (AND), American Society for Nutrition (ASN), The Obesity Society (TOS), and Institute of Food Technologists (IFT). Dr. Vandyousefi is the first author or co-author on over 30 peer-reviewed manuscripts and has completed several podium and poster presentations at national scientific meetings including National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) and Academic Pediatrics Association.

Academic Credentials & Professional Honors

Ph.D., Nutritional Sciences, University of Texas, Austin, 2019

M.S., Nutrition and Food Management, University of Central Oklahoma, 2014

B.S., Nutritional Sciences, Azad University (Sci and Res Branch), Tehran, 2009

Finalist. Emerging Leaders in Nutrition Science Abstract Recognition Award in the "Obesity" Topical Area. Nutrition 2021 Live Online.

First Place Winner. American Society for Nutrition 2019 Video Contest. Nutrition TX Sprouts: Cultivating Healthier Lives.

Second Place Winner. Emerging Leaders in Nutrition Science Competition Award in "Maternal, Perinatal and Pediatric Nutrition" Topical Area. American Society for Nutrition. Nutrition 2018. Boston, MA.

Second Place Winner. The Nutritional Sciences Retreat Poster Competition 2018. University of Texas at Austin.

Jean Hankin Nutrition Epidemiology Research Grant Award, Academy of Nutrition and Dietetics, 2017.

Honorable mention for highly meritorious scholarship application, Graduate Women in Science (GWIS), 2014.

Dean's Honor Roll, University of Central Oklahoma, Edmond, Oklahoma.

Member of the Golden Key International Honor Society.

Licenses and Certifications

Licensed Dietician, Washington DC, #DI200001623

Registered Dietitian

Registered Dietitian

Academic Appointments

Research Assistant Professor, Department of Medicine, New York University Grossman School of Medicine, 2022-Current

Prior Experience

Postdoctoral Fellow/ Clinical Project Manager, New York University Grossman Medical Center
Department of Medicine - New York Harbor VA Hospital, 2021-2022

Postdoctoral Fellow, New York University Grossman Medical Center, Department of Pediatrics - Bellevue Hospital, 2019-2021

Principal Investigator/ Teaching Assistant/ Doctoral Researcher, The University of Texas at Austin,
Department of Nutritional Sciences, 2016-2019

Graduate Teaching Assistant, University of Central Oklahoma, Department of Human Environmental Sciences, Food Science Lab, 2013-2014

Professional Affiliations

Academy of Nutrition and Dietetics (AND), Member, 2012 - Present

American Society for Nutrition (ASN), Member, 2015 - Present The Obesity Society (TOS), Member, 2015 - Present

Landry MJ, Khazaee E, Markowitz AK, Vandyousefi S, Ghaddar R, Pillis K, Asigbee FM, Davis JN. (2017). Reproducibility of a fruit and vegetable screener in Hispanic fifth-grade students. Poster presentation. Food & Nutrition Conference & Expo. Academy of Nutrition and Dietetics. Chicago, IL.

Vandyousefi S, Bhargava K, Kotturi H, Khadka P, Park A, Daugherty Y, Chooback L. (2014). Formulation, characterization, and antimicrobial efficacy of cinnamon oil emulsion against *Staphylococcus Aureus*. Poster presentation. Proceedings of Oklahoma Research Day 2014, University of Central Oklahoma, Edmond, OK.

Additional Education & Training

Python for Data Science, AI & Development, 2022

Databases and SQL for Data Science with Python, 2022

RD, Dietetic Internship, Texas A&M-Kingsville, 2015

Research Grants

Agency: Jean Hankin Nutrition Epidemiology Research Grant- Academy of Nutrition & Dietetics

Role: Principal Investigator

Dates: 01/01/18-08/01/19

Title: Behavioral, Environmental, and Policy Factors Influencing Childhood Obesity

Agency: The City of Austin, Office of Sustainability

Role: Co-Principal Investigator

Dates: 01/01/17-06/03/19

Title: Assessing the landscape of gardening schools around Austin

Agency: Research, Creative & Scholarly Activities (RCSA) Grant - UCO

Role: Principal Investigator

Dates: 01/01/14-06/03/14

Title: Cinnamon Oil-Based Nano Emulsion Coating to Increase Quality of Eggs
