Engineering & Scientific Consulting

Simon Green

Senior Scientist | Chemical Regulation and Food Safety
Harrogate
+44 (0) 1423 878960 | sgreen@exponent.com

Professional Profile

Dr. Green is a regulatory chemist with extensive experience in the regulation of pesticide and biocides, 9 years with CRD (the UK regulator responsible for pesticide and biocide approvals and authorisations) and since 2019 at Exponent International (Harrogate, UK). In this time he has worked with a wide range of clients from large multinational chemical companies, to small SME ventures, some of which only have a small number of products. Dr. Green provides our clients with support in the areas of chemistry (physico-chemical properties, specification setting &, study monitoring), analytical methods (validation, troubleshooting) and submissions (preparation of active substance & product dossiers, post submission support) within the EU and UK frameworks of pesticide and biocide regulations, primarily EU (Reg (EC) No 1107/2009 and Reg (EU) 528/2012).

Academic Credentials & Professional Honors

Ph.D., Engineering and Physical Sciences Chemistry, University of Manchester, UK, 2008

M.Chem., Chemistry, University of Sheffield, UK, 2002

Prior Experience

Chemistry and Residues Specialist – Health & Safety Executive (HSE) CRD, 2009 -2018

Project Experience

- Significant experience in the preparation of the chemistry, methods and confidential sections of plant protection and biocides dossiers in support of active substances and products, for approval in the EU & GB/NI.
