

Exponent[®]
Engineering & Scientific Consulting

Vivienne Zheng, Ph.D.

Managing Engineer | Polymers & Chemistry
Hong Kong
+852 3998 5418 | vzheng@exponent.com

Professional Profile

Dr. Zheng's expertise is in materials characterization and electrochemistry, with an emphasis on synthesis and engineering of polymers and hierarchical metal structures. She routinely applies these skills to assess the performance and failures mechanisms of batteries, dielectric coatings and anti-corrosion films often used in consumer products and electronic packaging applications.

Dr. Zheng has extensive experience in factory audit, quality control, and failure investigation applying her knowledge in ISO9001:2015 quality management system and various characterization tools including scanning electron microscopy (SEM), energy dispersive X-ray spectroscopy (EDS), transmission electron microscopy (TEM), X-ray photoelectron spectroscopy (XPS), thin film and powder X-ray diffraction techniques (XRD), atomic force microscopy (AFM), ultraviolet-visible (UV-vis) spectroscopy, Fourier-transform infrared spectroscopy (FTIR), Raman spectroscopy, thermogravimetric analysis (TGA), Differential scanning calorimetry (DSC), gas chromatography-mass spectroscopy (GC-MS), nuclear magnetic resonance (NMR), Thermo Mechanical Analysis (TMA), Universal Testing Machine (UTM), electrochemical analysis including galvanostatic, potentiostatic and electrochemical impedance spectroscopy (EIS), Mott-Schottky analysis and Tafel analysis.

By skillfully employing these tools and experimental design techniques, Dr. Zheng has successfully solved many complex materials science issues related to corrosion, contamination, polymer and metal fracture, electrical failure as well as energy conversion efficiency in batteries and fuel cells. She has also led various fire and failure investigation related to batteries, including collecting evidence of thermal runaway, study on the origin, causes, propagation patterns of fires, defects in electrical circuits, and assessing physical damage etc.

Academic Credentials & Professional Honors

Ph.D., Mechanical Engineering, Hong Kong University of Science and Tech, 2020

B.S., Law, Beihang University, 2015

B.S., Material Science and Engineering, Beihang University, 2015

2024 CQI/IRCA Certified ISO9001:2015 Lead Auditor

Prior Experience

Post-doctoral Fellow, Mechanical and Aerospace Engineering, HKUST, 2020-2022

Part-Time Research Assistant, Center for Engineering Materials and Reliability (CEMAR) in HKUST, 2018-2020

Professional Affiliations

National Association of Fire Investigators (NAFI)
