Zoe Dobler, Ph.D.

Scientist | Human Factors
Los Angeles
+1-310-754-2729 | zdobler@exponent.com

Professional Profile

Dr. Dobler has expertise in sensory processing and perception, specializing in how the brain adapts to ever-changing environments. She applies her expertise to address and analyze human factors contributions to automobile accidents, trips, slips and falls, and warning and safety issues.

Dr. Dobler earned her Ph.D. in Neuroscience from the University of California, Los Angeles (UCLA) Neuroscience Interdepartmental Program. Her doctoral research focused on the population dynamics and circuit mechanisms underlying sensory processing. Using techniques such as in vivo imaging and optogenetics, she characterized sensory adaptation in brain areas important for processing tactile stimuli. Before beginning her doctoral studies, she completed a Fulbright scholarship investigating the genetic mechanisms underlying neurodevelopmental disorders.

Academic Credentials & Professional Honors

Ph.D., Neuroscience, University of California, Los Angeles (UCLA), 2024

B.A., Biology, West Virginia University, 2018

UCLA Brain Research Institute/Semel Institute Graduate Travel Award (2023)

Jessamine Hilliard Neurobiology Graduate Student Grant (2023)

Science Communication Training Award, UCLA Brain Research Institute (2021)

Honorable Mention, National Science Foundation Graduate Research Fellowship Program (2021)

Fulbright Austrian-Marshall Plan Foundation Award in Science and Technology (2018)

Prior Experience

Graduate Student Researcher, UCLA, 2019-2024

Acting Editor in Chief, Knowing Neurons, 2023-2024

Senior Editor, Knowing Neurons, 2023

Teaching Assistant, UCLA, 2023

Editor and Social Media Manager, Knowing Neurons, 2020-2023

Fulbright Scholar, Institute of Science and Technology Austria, 2018-2019

Summer Intern, New York University Langone Medical Center, 2018

Professional Affiliations

Human Factors and Ergonomics Society

Society for Neuroscience
