

Maribeth Anderson

Scientist | Chemical Regulation & Food Safety
1150 Connecticut Ave NW, Suite 1100 | Washington, DC 20036
(202) 772-4945 tel | andersonm@exponent.com

Professional Profile

Ms. Anderson is a Scientist in Exponent's Health Sciences Center for Chemical Regulation and Food Safety. She has a comprehensive background in healthcare research and data management and analysis. Additionally, she has experience in dietary intake assessments, investigation of surgical oncology techniques and their outcomes, retrospective chart reviews, and quantitative analysis. She also offers extensive knowledge in the field of nutrition and health behavior.

Prior to joining Exponent, Maribeth worked as a researcher at an academic-based community cancer center. Most recently, she analyzed 10 years of rectal cancer surgery data in order to analyze differences in outcomes and cost between open, laparoscopic, and robotic surgery. She presented these findings at the American College of Surgeons Quality and Safety Conference. She also has experience working at a nutrition technology company, reviewing and expanding their food and ingredient databases.

Academic Credentials & Professional Honors

M.S., Nutrition Education, American University, 2021

B.S., Biology, St. Mary's College of Maryland, 2018

Prior Experience

Research Assistant, University of Maryland Baltimore Washington Medical Center, 2019-2021

Nutrition Analyst, Heali, 2020

Publications

Presentations

Anderson M. Role of robotic rectal surgery in a community cancer center: An analysis of 10 years of open, laparoscopic, and robotic surgeries. PowerPoint presentation, American College of Surgeons Quality and Safety Conference, 2021.
