

Breanne Yerkes, Ph.D.

Scientist | Human Factors

5401 McConnell Avenue | Los Angeles, CA 90066

(310) 754-2711 tel | byerkes@exponent.com

Professional Profile

Dr. Yerkes has expertise in human perception, attention, cognition, and auditory processing. She applies her expertise to evaluating and explaining human factors in a variety of settings including transportation and pedestrian accidents, consumer product design and usability, and risk communication and warning compliance. Dr. Yerkes has over ten years of experience in experimental design, data collection, analysis, literature review, and scientific communication.

Prior to joining Exponent, Dr. Yerkes received her Ph.D. in Experimental Psychology with an emphasis in human cognition from the University of Nevada, Las Vegas. In her graduate work, she used behavioral and electrophysiological measures to understand the influence of acoustic properties (e.g., pitch, sound level) and cognitive factors on the organization and perception of sounds in children and adults. Furthermore, she studied how these processes affect the ability to perceive speech in noisy environments and detect auditory changes in complex listening situations.

Academic Credentials & Professional Honors

Ph.D., Psychology, University of Nevada, Las Vegas, 2021

M.A., Psychology, University of Nevada, Las Vegas, 2017

B.A., Psychology, University of Nevada, Las Vegas, 2012

Academic Appointments

Instructor, Psychology, University of Nevada, Las Vegas, 2015-2017

Prior Experience

Graduate Researcher, University of Nevada, Las Vegas, 2013-2021

Lab Manager, Auditory Cognitive Development Lab, University of Nevada, Las Vegas, 2019-2021

Lab Manager, Auditory Cognitive Neuroscience Lab, University of Nevada, Las Vegas, 2013-2015

Professional Affiliations

Human Factors and Ergonomics Society

Acoustical Society of America

Association for the Scientific Study of Consciousness

Association for Research in Otolaryngology

Publications
